IAP高中留学桥课程

帮助中国学生就读世界名校作最充分的准备

International Access Program

IAP Program

North America Education Centre (NAEC) introduces the IAP Program (International Access Program) for students who wish to take a university-preparatory program while taking their normal Chinese HS program to get better prepared for university studies in the western world. The IAP Program is based on the internationally-recognized ACT/GAC Program from ACT Education Solutions Ltd (a subsidiary of ACT Inc. of the USA).

The IAP Program can be taken as an alternative to the blended Chinese-US High School program. Students in a blended Chinese-US HS program would continue taking the Chinese HS curriculum (to maintain their heritage education); however, they feel that they are both motivated and capable of studying for another western program (either a US HS program or a university-preparatory program).

IAP高中留学桥课程

北美教育中心提供的IAP高中留学桥课程，是针对想在完成正规中国高中课程的同时，能进修一个承认的大学预科课程，以对毕业后出国读大学有充分准备。IAP高中留学桥课程，是基于全球认可的美国ACT Education Solutions Ltd (美国ACT美国高考的附属机构)所提供的ACT/GAC课程编排授课。

IAP课程可作为“混合中美课程”的另一个选择。这类学生在修读中国高中之同时，有能力或动力同步进修一个美国高中课程或大学预科课程。

Target students

The IAP Program is mainly for existing high-school students in China, who also like to take an English university-preparatory program to better prepare themselves for further studies abroad. In other words, these students would aspire to go abroad for university education.

招收对象

IAP课程主要帮助目前在上中国高中同时希望能进修英语大学预科课程的高中生，更好地准备他们将来的留学计划。换句话说，这些学生立志出国留学。

Benefits of the IAP Program

1. Over 150+ pathway universities (from the US, Canada and Britain, etc...) recognize the IAP Program.
2. Up to 39 transfer credits may be granted based on the courses completed in the IAP Program. This could mean a possible saving of one year in a 4-year degree program.
3. TOEFL/IELTS and ACT/SAT test preparation are included in the IAP Curriculum; so that students are properly prepared to take the world-recognized standardized tests for wider choices of universities (beyond the 150+ pathway universities).
4. The IAP Program can be taken concurrently during the High School years in China; so that the students can get the Chinese HS Graduation Diploma and the ACT/GAC Certificate at the same time.
5. A number of pathway universities offer scholarships and/or bursaries to IAP graduates.

IAP课程的优势

1. 超过150家英美加大学认可ACT/GAC成绩。
2. 完成ACT/GAC课程后，最多可获得39学分转移，这意味着可以大致节省4年制大学一年的课程。
3. 托福/雅思/ACT/SAT备考已经包括在ACT/GAC课程里。
4. IAP课程可与中国高中课程同时进行，因此学生在拿到中国高中文凭的同时取得ACT/GAC证书。
5. 有些“直通车”大学提供奖学金和/或助学金。
